

P-103

#9 – I couldn't find the question mark they wanted so I have included three separate images so you can animate it in steps 9–13. There is a black box, the top of the question mark and the bottom of the question mark. You can find them in Google Classroom or on the link on the lesson plans. You will have to insert them separately and rearrange them to look like the picture. Then you won't have to ungroup them in step 10 because they are already separate images.

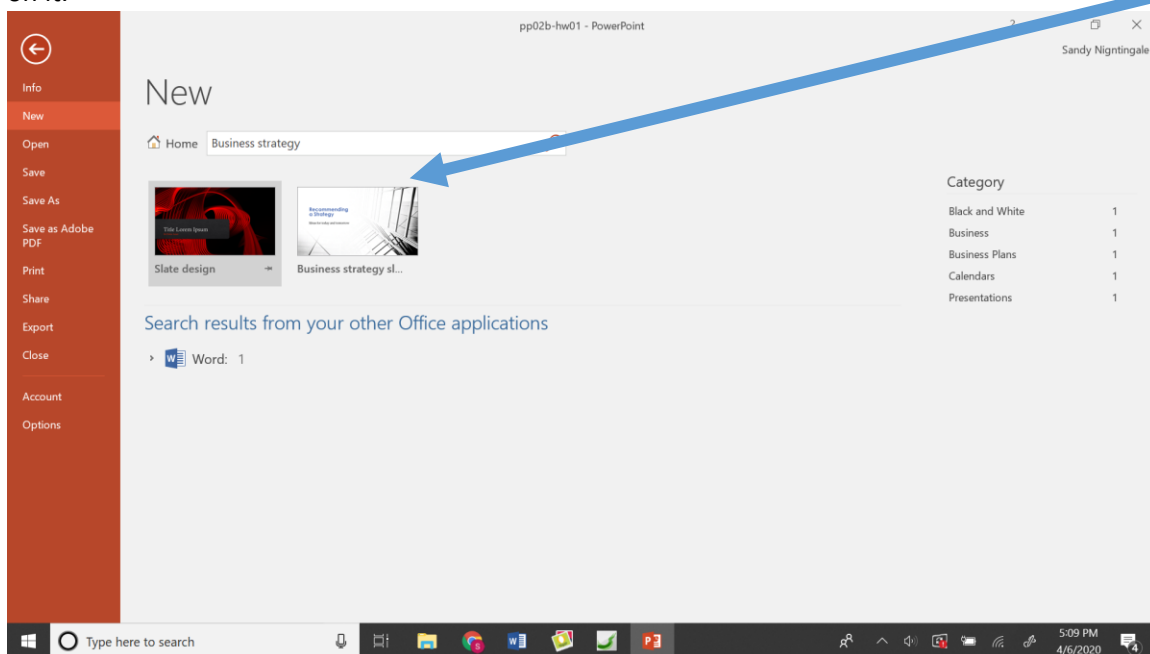

#11 – Select both parts of the question mark and drag it over on top of the blue.

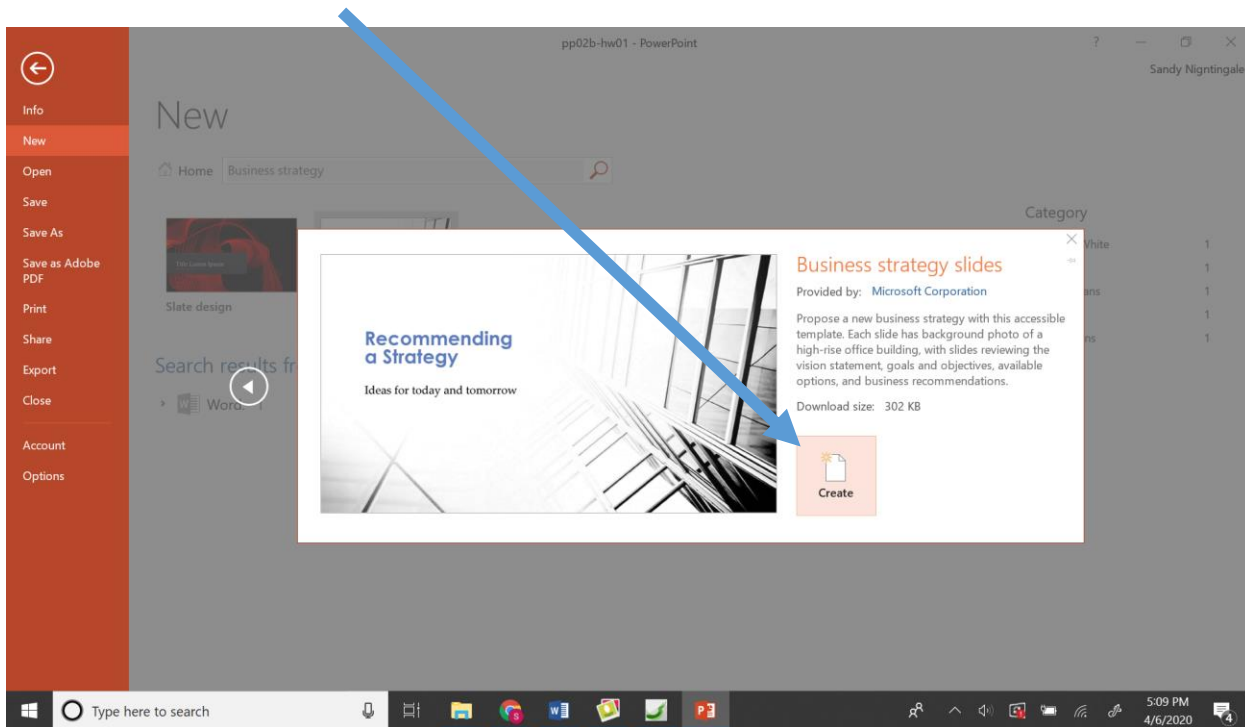

P-115 to P-119 I couldn't find the templates they wanted, so just take some time to look through the templates that are available. There is nothing to hand in here.

P-122

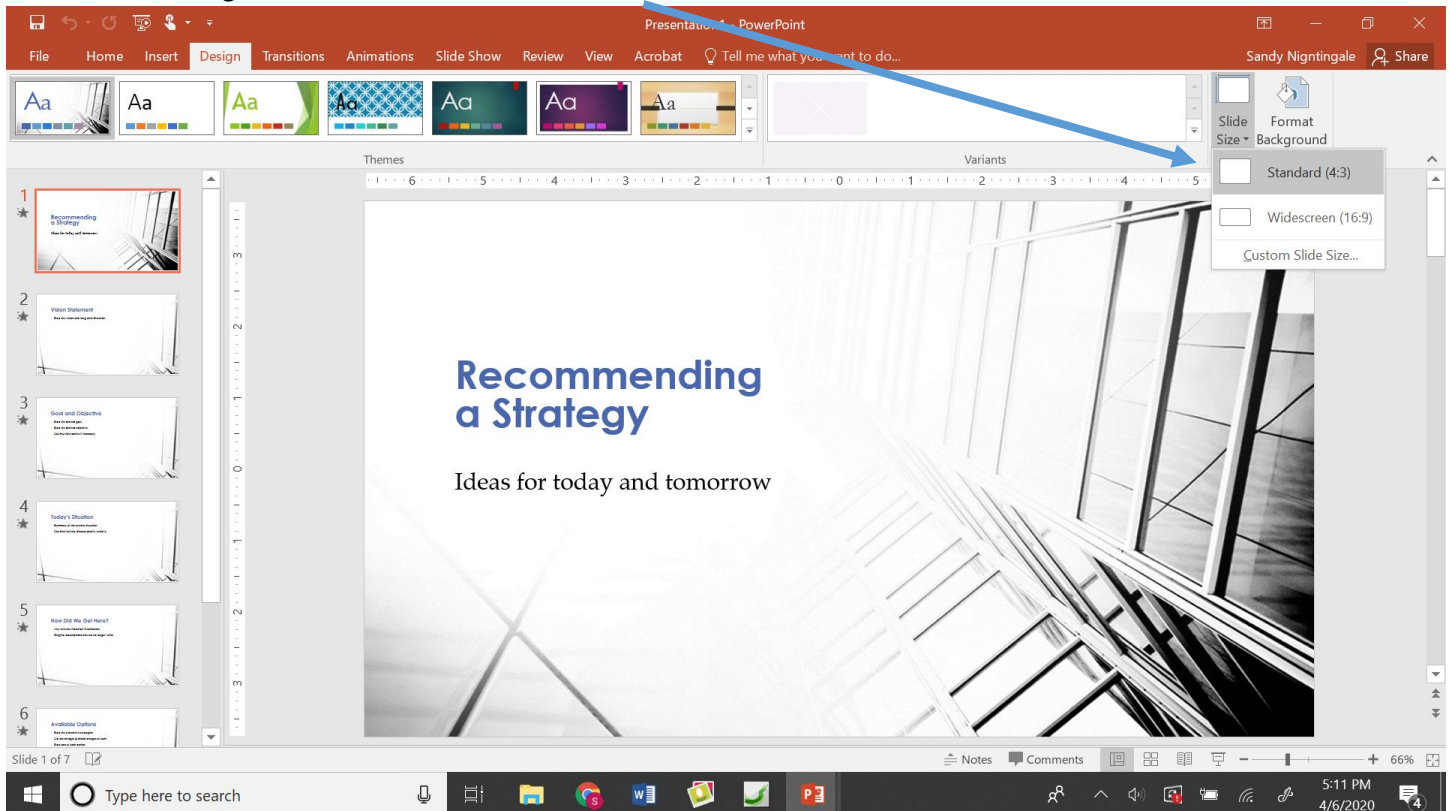

#1 Instead of what they tell you to search for, just search for Business strategy and you will find the right template. Click on it.

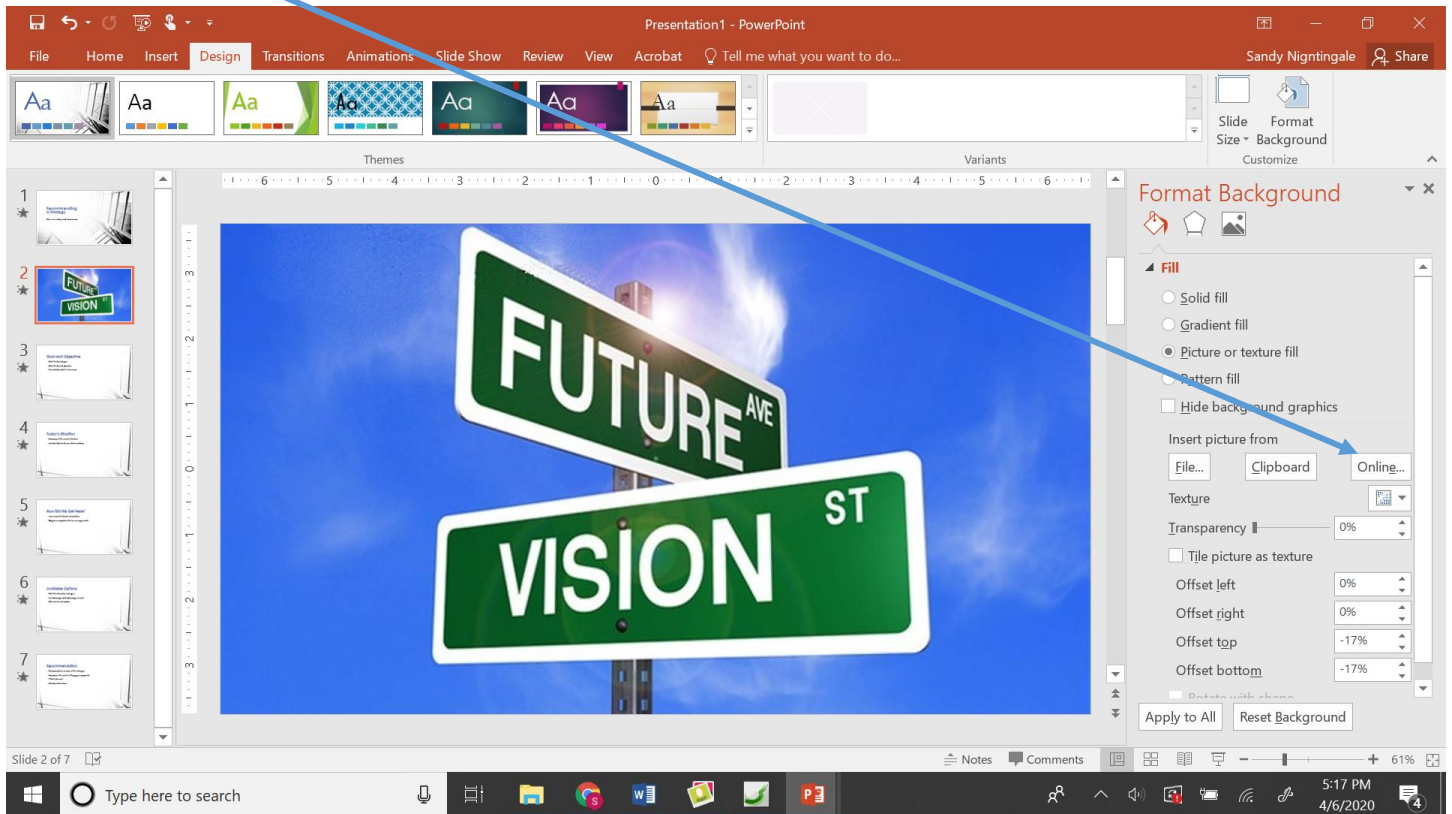

Click Create.

#2 – Click the Design tab and click on Slide Size...Choose 4:3

#3 – This is the picture I found.

#4-6 – I have an image of a man and a star that you can use so you don't have to ungroup it. You will have to draw your own glow lines with little black lines so you can animate them in #7. You don't have to separate the black from the yellow like it says.
